

PASSED LENROOT FRANCHISE BILL

Must Be Submitted for a
Vote on Petition of
Ten Per Cent.

ENDORSE CULLOM BILL

Fire and Police Pension Sys-
tem for Cities of the
Third Class.

IN THE LEGISLATURE TODAY

Madison, Wis., March 8.—The assembly this morning passed the Lenroot franchise bill providing that any franchise or petition of ten per cent. of the voters within sixty days after passage by the council must be submitted to a vote of the people.

The Hall memorial to congress urging the passage of the Cullom bill was also passed.

The bill providing for a fire and police pension system in cities of the third class was ordered to the third reading in the assembly.

Lead boers

A Roar From the North.

Madison, March 8.—Present indications are that there is going to be a very bitter fight before the apportionment committee over Milwaukee county's demand for two congressional districts.

The Milwaukee county legislative delegations wants two congressional districts and Northern Wisconsin is bound that its desire shall not be granted. A threat of the Milwaukee members that they will carry the fight to the floor of the legislature is not cutting a particle of ice with the northern Wisconsin members of the apportionment committee, who say they would as soon the battle be on the floor of the legislature as in the committee room.

Check On Extravagance.

The senate has passed one of the most important bills ever introduced into the Wisconsin legislature relating to the state institutions.

The bill is intended as a check to prevent reckless extravagance at penal and charitable institutions, and provides that no expense bills for such institutions shall be paid unless approved by the governor.

The measure is an amendment to the board of control statutes.

Assembly Is Way Behind.

The assembly is way behind its predecessors of two years ago. One of the clerks made a statement of the work at the close of business yesterday and compared with March 10, 1899. On the legislative calendar March 8 this year corresponds to March 10, 1899, so the comparison gives this assembly two days to catch up. On the other hand, in 1899, a couple of weeks were occupied with the senatorial contest, almost to the exclusion of other business.

Railroad Commission Bill Dead.

The hearing on the Hall Railroad Commission bill and the Brunson rate bill were concluded last evening, and while no report has yet been framed, the arguments against both bills have been so overwhelming that there is little doubt that the bills will be killed. Assemblyman Hall, who was expected to argue for his bill, gave up the fight before the committee and notified Chairman Thomas of the Railroad committee of the assembly that he would carry on his fight on the floor of the house.

COLORED PEOPLE HELD IN SLAVERY

South Carolina Grand Jury Makes a Strong Presentation to an Anderson Court

Anderson, S. C., March 8.—The grand jury has made a presentation of the subject of the enslavement of negroes and has recommended the prosecution of leading citizens.

The investigation and presentation have revealed a horrible condition. Slavery with all of its horrors and more than its former brutality is known to exist. Men have been kidnapped, locked up, shackled, and mercilessly whipped. Under the guise of the convict lease system this scandalous system has been allowed to go on. Since the jury began its investigation the managers of the private stockades have opened all of the doors and the black slaves have been allowed to depart, but death was threatened to all who divulged the secrets of the stocks. Negroes at Anderson have fled through fear.

Nevertheless the truth has come out and the court is considering what next to do. The death of Will Hull, a negro who had been seized upon a trumped up charge and committed to

SAVES BABE FROM FLAMES.

A School Teacher Rushes Into Burning Home.

Minneapolis, Minn., March 8.—With the thermometer at zero and clad only in a night dress, Mae Crill, teacher of the school at Itaska Lake Minn., rushed into a burning house early yesterday morning, and at the risk of her life brought from the house the infant daughter of Mr. and Mrs. I. Whitney. When she reappeared in the street with the child clasped in her arms, her long hair, which had been badly burned by the flames, was the only covering she had. Miss Crill boarded at the Whitney home. When fire broke out, she in company with Mr. and Mrs. Whitney, rushed into the street, forgetting the child. Suddenly above the roar of the flames the cries of the little one were heard. Miss Crill recovered her presence of mind instantly and darted into the building, from which the flames were bursting. How she fought her way to the child the young woman does not remember, but she kept on in spite of the fact that her night dress was burned off, and the flames cooked her delicate body. Her hair she pulled in front of her face and was thus enabled to breathe. When she reappeared with the child clasped to her bosom and fell fainting in the street she was immediately lifted up and taken to a neighbor's house, where she received attention.

G. A. R. TO MEET AT SHEBOYGAN

Allen H. De Groff of Buffalo County,
Endorsed for Position of De-
partment Commander.

Milwaukee, March 8.—The annual encampment of the Wisconsin department G. A. R. will be held at Sheboygan the latter part of May, though the exact date of the meeting is still to be determined by Department Commander James. Although there are only about ten weeks before the encampment, there is but one candidate for department commander.

This is Allan H. De Groff of Buffalo county, who has been endorsed for the position by his home post. He has always been an enthusiastic Grand Army man, and is counted among the youngest and most vigorous of the Civil war veterans in his part of the state. Mr. De Groff is postmaster at Nelson, and a merchant there.

Mr. De Groff is a native of Wisconsin, and was born in Dodge county in September, 1848. He was one of the youngest soldiers furnished by the state, being enrolled Jan. 3, 1864, in Company G, Twenty-fifth Wisconsin. He was discharged when the Twenty-fifth was mustered out and was transferred to Company F, Twelfth Wisconsin.

UNEASINESS IS FELT ABOUT CUBA; AGITATORS STIR UP THE NATIVES

President is Firm That Cuba Must Accept Terms—
Additional Troops Will Be Sent to the
Island if Deemed Necessary.

Washington, D. C., March 8.—Unless Cuba yields to the prescribed protectorate President McKinley will instruct the war department to issue a proclamation through Gov. Gen. Wood defining the conditions imposed in the Cuban amendments to the Army bill, as irrevocable. Secretary Root is preparing to lay the Cuban subject before the meeting of the cabinet today and a definite course of procedure will be agreed upon.

President McKinley proposes to abide by the spirit and letter of the congressional mandate, and if necessary additional troops will be sent to Cuba to convince the so-called "Rebel" radicals that the United States protectorate is something tangible and not an instrument to be bent according to the wishes of Cuban revolutionists.

Uneasiness is manifested here because of the rising tide of popular clamor against the acceptance of the

Cuban protectorate. Gov. Gen. Wood informs Secretary Root that demonstrations are held daily and petitions are sent from the inner provinces and communities praying the convention not to accede to the Platt amendments. This is said to be to the systematic distribution of misleading statements by revolutionary agitators seized at the war department. According to the information received at the war department the Cubans are divided into three factions where their candidates for the presidency of the infant republic are being promoted. These three are Maximo Gomez, who is looked upon as the original and the most popular; Bartolome Masso, a sugar planter of Manzanillo, who is identified with the revolutionary and anti-American element and Thomas Estrada Palma, head of the Cuban junta in New York. The latter will leave soon for Havana to take charge for his campaign.

SENATE IS GETTING READY TO ADJOURN

Washington, D. C., March 8.—A number of senators who have talked with the president express the opinion that the recent special session of the senate can be brought to a final conclusion tomorrow and some think that adjournment may be reached this evening.

Senator William F. Frye of Maine was re-elected unanimously president pro tempore of the senate to serve during the pleasure of the senate. This is the second time that Senator Frye has been honored by his colleagues. Five years ago on Sept. 7, 1896, the republicans then being in a minority, he was elected unanimously.

BUTTERFIELD CHOSEN

Hartford, Wis., Man, Selected to Succeed M. C. Phillips as United
States District Attorney.

Milwaukee, March 8.—A dispatch from Washington announces the selection of H. K. Butterfield of Hartford for United States District Attorney for the eastern district of Wisconsin. The term of M. C. Phillips, the present incumbent, does not expire until April, but there has been such a warm fight over the office that Senators Quarles and Spooner determined to settle the controversy at once.

EX-PRES. HARRISON DOWN WITH GRIP

His Condition is Such as to Cause
Alarm—He Seems To Be Very
Ill and Feeble.

Indianapolis, March 8.—Former President Harrison is ill with a very pronounced case of grip and his condition is such as to cause much alarm among his friends. He was taken with a severe cold more than a week ago and placed himself under the care of Dr. Henry Jameson, the family physician. His trouble did not respond readily to the remedies but he remained in the house and it was hoped would escape serious illness. Yesterday he was worse and compelled to take to bed and today he was not as well as yesterday. Friends who have visited him say he appeared very feeble and gave the impression of being a very sick man.

CUT OUT HIS STOMACH

New York Man Will Probably Recover from a Delicate Surgical Operation.

New York, March 8.—Lewis J. McKenna, a clerk in the insurance company, is at St. Luke's hospital recovering from a surgical operation which is one of the rarest known to medical science. The operation is known as gastro-antrostomy and consists of removing the patient's stomach, cutting away the pylorus and several malignant growths in its vicinity and restoring the stomach to its former place.

McKenna was resting easy last night, and the physicians say that if the present improvement continues he will be up in a week.

Madison, Wis., March 8.—Mrs. Robert Curtis Brown of Milwaukee heard the "Varsity" yell in all of its vigor at the Fuller opera house last night when as "Jane Peyton," she made her appearance here in "Prince Otto." Neither Otis Skinner himself nor Miss Maud Durbin received heartier applause than Miss Peyton. Quantities of flowers were sent to her by Madison and Milwaukee friends. Dr. Brown was among those who came in to witness his wife's performance.

Sentenced Two Days After the Commission of His Crime.

Mishawaka, Ind., March 8.—For the speedy administration of justice the case of William Parker tried here yesterday is without a parallel in the history of the St. Joseph Circuit Court.

Monday night Parker stole a horse and buggy at South Bend and drove to this city. At nine o'clock this morning he was arrested and taken at once before Judge Funk. In less than two hours from the time of arrest Parker had received an indeterminate sentence of from one to fourteen years in prison.

The convicted man is a son of a wealthy brewer at Sturgis, Mich., and has a wife and family living there.

Centralia, Ill., March 8.—With his head turned by a fortune that he had fallen heir to, C. A. Connaughton of Hammond, La., sits in the police station here, imagining that every person he sees is trying to kill him to keep him out of the money. With his son, Connaughton was traveling from home to Peoria, Ill., and had tickets when he became insane. He refuses to leave the station on account of his fears. The fortune is at Rock Island and William McEnery, his attorney there, has telephoned that he will come after his client.

DANCING STUDENTS ARE SUSPENDED

Fourteen Pupils Put on Black List by Faculty of Lawrence University at Appleton.

Appleton, Wis., March 8.—Because they had danced in violation of the rules of Lawrence university, a Methodist institution, fourteen students were suspended from classes. The suspension of six was announced immediately after chapel devotions by President Plantz. When the names were read the greatest consternation prevailed among the students, as there had been no suspicion of such action. Later a big crowd congregated in the main college hall, and it was decided that all who had participated in the dancing should confess. As a result, the names of eight more students were given to President Plantz and they also were suspended. Among the suspended students are a number of "coeds."

WOMAN SERVES IN ARMY.

Enlists in Male Attire to Be Near the Man That She Loved.

Akron, O., March 8.—After serving in the Hungarian army an enlistment of three years to be near her sweetheart, and then coming with him to America to help make his fortune, pretty Mary Kerst yesterday married Alexander Hartman, the man for whom she had shouldered a gun and in male attire stood the rigorous discipline of the kaiser's army.

Hartman and Miss Kerst had been sweethearts for years, and when he was compelled by the laws of his country to serve a term in the army she, rather than be separated from the man she loved, donned male attire and enlisted with him. When the term of enlistment had expired they came to this country, and have for six months been living together here in Akron. Yesterday the woman appeared as a witness in the police court, and in some manner the fact became known that she and Hartman were sweethearts and the romance of the army was told. Mayor Young heard of the case and suggested they marry immediately, which they did.

They had never married in Hungary because he is a Jew and she is a Catholic.

BOTHA TREATING WITH KITCHENER

Terms of Peace To Conclude The War Discussed.

KRUGER IS OBSTINATE

Steyn and Dewet May Go On Without Botha if He Surrenders.

BOERS FAIL AT LITCHENBURG

Lorenzo, Marques, March 8.—Lord Kitchener has granted Botha seven days' armistice to confer with the Boer chiefs in the field.

Pretoria, March 8.—Commander Kitchener met General Botha, the Boer leader, and other influential Boers at Middelburg on Feb. 27. They discussed terms to end the war. Kitchener met again today at Dunkill. Botha was unaccompanied while Kitchener had a secretary with him. They had a long conference the result of which has not yet been disclosed. Excitement at Amsterdam.

Amsterdam, March 8.—The news that Kitchener is negotiating with Botha caused great excitement here. The belief of representative Boers now in Holland is that Botha will probably give in to the British. Kruger however, remains obdurate in his opinion that the war will be carried on and it is his opinion that Steyn, Dewet and Viljoen will continue to hold out. Botha it is asserted controls only the forces under his immediate command.

Boers Fail at Lichtenburg.

London, March 8.—Lord Kitchener reports that the Boers failed in their attack on Lichtenburg. The Boer Commander Celliers was killed in the fighting. The British loss in addition to that previously reported was fourteen killed and twenty wounded. The position of Dewet is variously reported. His force is scattering in different directions. General French has found one creuset and one Hotchkiss abandoned by the Boers. The total number of Boers killed, captured and surrendered since French began operations east of Pretoria is 979. French has been chasing Botha and Myers.

IRISH IN DANGER OF SUSPENSION

Balfour's New Closure Rule Adopted by the British Commons—An Extraordinary Debate.

London, March 8.—Balfour's new rule providing for the suspension for one year of members who disobey the orders of the speaker was adopted at 5:15 this morning by a vote of 264 to 51.

Extraordinary Debate.

London, March 8.—The House of Commons was the scene of an extraordinary debate last night, during which Lord Hugh Cecil, youngest son of the premier, Lord Salisbury, was compelled to leave the house by the censure of the Irish members and the refusal of his own party colleagues to support him in his effort to secure a modification of the rules so as to provide for imprisonment of members of the House who refuse, as the Irish members did on Tuesday night, to obey the commands of the speaker.

Taunts for Premier's Son.

Lord Cecil made an earnest speech in support of his motion, and was constantly interrupted by taunts and jeers from the Irish benches.

"Why don't you behead us?" "Why not erect a scaffold?" "Commit the Irish to the tower." "Behold the Irish," were a few of the cries that came from a little handful of members led by Redmond and Dillon.

HARRIS GIBSON IS ELECTED SENATOR

Long Deadlock Over Montana U. S. Senator Broken by the Election of a Democrat.

Helena, Mont., March 8.—After a night spent in unusual excitement, Harris Gibson (dem.) of Great Falls was elected United States senator at three thirty this morning by the Montana legislature. That body has been deadlocked ever since the first day. Gibson was born in New Hampshire in 1830 and came to Montana in 1879.

Helena, Mont., March 8.—The seventh session of the Montana legislature seems likely to adjourn without filling the vacancy to the United States senate caused by the resignation of W. A. Clark last spring. Both houses

met in joint session shortly before midnight, stopped the clock and proceeded to ballot for a senator, the first one taken resulting as follows: Carter (rep.), 32; Frank (dem.), 26; Cooper (dem.), 18; MacGinniss (dem.), 6; Conrad (dem.), 3; Gibson (dem.), 1. The session is almost turbulent, feeling is running high and blood may flow ere long. One member seized a policeman's billy and demolished the clock; others are using most insulting language addressed to opposing factionists, while the whole body is in a high pitch of excitement.

DISSENT OF REV. C. M. STARKWEATHER

Thinks That Protestant Missionaries Are Doing Great Good in the Philippine Islands.

To the Editor of The Janesville Gazette:

Dear Sir—I have noticed that when a minister undertakes to criticize a newspaper he usually makes a mess of it, and I have also noticed that when a newspaper writer attempts to show the church people how to work, or how not to work, the result is not always a brilliant success.

Because I have been for some little time a reader of The Gazette to my personal pleasure and profit, and also because I have earned a larger salary as a newspaper man than the ministry has ever yet brought to me, I dare to reply to a recent editorial appearing in The Gazette. It was headed "Misdirected Zeal," and condemned the Methodists and Presbyterians for undertaking missionary work among the natives in Manila and the Philippine Islands.

It is stated in your article "That kind of work is never attempted in this country," such as gaining converts from the Catholic to the Protestant churches, or vice versa. And pray, how does that appear? Have you never heard of the special efforts that the Catholic church makes to win Protestants, and their claims of great success? Have you never heard of the plans of the Protestant Episcopal church looking toward church unity in trying to get us all to believe that they are the true church with a big C? Have you never heard of the eagerness with which some of the sister churches open their doors to welcome Methodist ministers and members? Well, thank God, one does not need a battery of artillery to open a way from one church to another nowadays.

And have you never heard that Methodist sermons are preached regularly every Sunday in Methodist churches in this country in a score of languages? The Methodist ministers who preach in the French, Italian, Spanish, Bohemian, Polish, and several other languages, are working for converts among people who come from Catholic countries? I don't know how the Presbyterians feel about it, but the Methodists don't care whence their converts come, so long as they are earnest and faithful workers, any more than you care who your subscribers are, so long as you have a long list of the maid they pay up regularly.

And then you intimate that these Protestant missionaries ought to have kept away from Manila until things were quiet. Why so? Do they interfere with the work of the army or navy, or the commissioners sent out by the president? If so, please cite an instance when the American

officials have ordered a Methodist or Presbyterian to stop preaching, or when these officers have closed a Protestant church in Manila, and I will supply you with instances of where and when the American officers have suspended the publication of American newspapers, and appointed, consors to edit the copy of American reporters and editors. The American newspaper and the Protestant church are both in Manila. Why hasn't the preacher as good a right there as the newspaper man? Wherever American go, whether to Alaska or Manila, you will find in the number the hustling newspaper man and the earnest evangelical preacher, and one of these has small right to advise the other to pack out. But there are better reasons why Protestant missionaries have a right in Manila in spite of what any or all the Roman Catholic priests may say. Our Methodist workers had been in Manila but a few days when the found a native who, because he had loved and kept a Protestant bible, had been persecuted and imprisoned by the Catholic authorities.

This man had taught the bible truth to his son, and so well instructed was this son that he was found to be well prepared to preach the gospel in full accord with Methodist doctrines. This son, Nicolas Zamora, is now a regularly ordained minister in the Methodist Episcopal church. If you can prove by the authority you quote, "Reverend Father McKinnon," that these Protestant missionaries are "trying to secure Catholic converts by unfair means," I will undertake to match every such proof submitted with instances that will show that the Roman Catholic church in the Philippines has used cruel and unchristian methods to suppress liberty of conscience and the laudable desire for enlightened intelligence.

Another reason why the Protestant church should have a place in these islands and I am done. It is our duty as a nation to train the Filipinos to be self-governing. Now all modern, discerning historians are recognizing the evangelical churches of the United States as mighty factors in making our nation both strong and free. All the institutions that help to make men strong and free are needed in the Philippines, and, for one, I am glad that two such mighty agencies of this sort as Methodism and Presbyterianism are getting so good a start there.

Very sincerely yours,
C. M. STARKWEATHER.

AMUSEMENT NOTES

"The Rounders" is the name of the

latest New York Casino success, which will be at the Myers Grand on March 14 with Comedian Thomas Q. Seabrooke as its brightest, most particular star. Manager Lederer presents Thos. Q. Seabrooke as Maginnis Pasha at the head of the organization which is a guarantee as to the quality of the comedy element. Mr. Seabrooke is so well known that the mere announcement of his name is sufficient. Mr. Seabrooke originated the role

THOMAS Q. SEABROOKE.

when the play was produced in New York last spring and achieved a distinct success. His quaint and original humor in the part of the Irish Turk is irresistibly funny. The play is by Harry B. Smith, the musical score have been composed by Ludwig Englander. The story is that of an American girl married to a wicked French Marquis, who behaves as such aristocrats do, especially on the stage. She fails to fall into his ways and instead of becoming "Parisianized" she sits around and mopes, thinking that it is all very unfortunate. Incidentally it might be mentioned that the wife of the marquis is a native of Philadelphia, a descendant of a devout Quaker family and unaccustomed to the giddy existence of the French nobility. The straight laced ideas and habits of his wife makes the marquis behave worse than ever, and he spends the most of his time in the company of a French dancer. The wife eventually gets a little worldly wisdom and resolves to do a little flirting herself, not for the flirtation's sake but as a medicinal dose for her wayward husband. She stimulates an attachment for Maginnis Pasha, the Irish Turk, and incidentally the funny man of the play. Mixed up with the story is the base man of the world, who has tried "everything and found nothing in it" an "up-to-date" American girl and a host of Parisian Jolly people.

The company employed in the presentation of the "Rounders" excels the usual Casino cast in importance. Mr. Seabrooke as Maginnis Pasha is seen at his best and his rollicking Irish humor furnishes an inexhaustible supply of merriment from the beginning to the end of the play.

An extremely clever bit of characterization is being done in "Prince Otto," which Otis Skinner will present here March 12, by Frank Sylvester, who is cast as the satirical doctor von Waldenholz, the cousin of the prince. Mr. Sylvester seems more at home than any other member of the cast of Mr. Skinner's company, which is due to the fact that this is his fourth season with the Skinner company.

Sol. Smith Russell's retirement from the stage last winter on account of illness gave Mr. Keenan the coveted opportunity to play the famous part of "Noah Vale" a character so intensely in touch with the manly and womanly sentiments of mankind that to such a conscientious and talented actor as Mr. Keenan is the golden chance that so seldom comes an actor's way. Mr. Keenan scored a triumph that is agreeable to the management, acceptable to the public, and an additional acquisition to the realm of dramatic art. Under Mr. Fred G. Berger's clever management, Mr. Keenan's last tour was one continuous success, seldom accorded to an actor, and the same may be said of his present tour. The appearance here of this excellent attraction will take place this evening at the Myers Grand.

COUNTY FAIR MATTER STIRS EVANSVILLE

MEETING TOMORROW NIGHT TO SETTLE QUESTION.

Kindergarten Department for the Public Schools—Business Office of the Badger Telephone Co. Will Remain at Evansville—News and Notes from Other County Towns.

Evansville, March 8—Evansville is at last to have a kindergarten department added to her public schools. This new feature, which has been in the minds of the school board, and its advisability has been discussed by the citizens of the town for some time, will soon be an accomplished fact. Next Monday morning the wee scholars will begin their work under the direction of Miss Clara Browning, of Elgin, Ill., whose ability as a kindergarten teacher has been proven to the satisfaction of the school management.

A meeting will be held in the city hall Saturday evening to settle the question as to whether the county fair shall or shall not continue to be held in Evansville. This question seems to be creating no little disturbance in the minds of our citizens. After the brilliant success of the past two years, much to the admiration and envy of the surrounding towns, it would seem to us a pity to relinquish all hold upon it. It is to be hoped that the meeting will be well attended, so that this question may be finally settled and it also hoped to the satisfaction of all.

Mr. Charles F. P. Pullem, secretary of the Badger State Long Distance Telephone Company, was in Evansville last week attending to the business of the company. The business office of the Badger State Co. will remain in Evansville, and will be in charge of the former secretary, R. M. Richmond. It was not thought advisable to move the business quarters to Milwaukee until the toll line had been built to that city. As soon as the ground thaws out, the company will commence building a toll line from Elkhorn to Racine, to connect with the independent exchange in that city.

The Evansville Telephone Co. is making extensive preparations to string a large amount of cable as soon as the weather moderates. The exchange has grown far larger than the most sanguine of the stock holders ever anticipated, there being at present one hundred and fifty-five phones in use and many more ordered, making an average of a telephone to every twelve inhabitants of the town.

A certain prominent young lady of this town gave a rag time party last Wednesday evening, to which she invited all the young social lights of the city. The guests were all attired in fantastic costumes and had their faces carefully disguised in burnt cork. No doubt this is the only known instance of their actions and remarks ever corresponding with their appearance.

Mr. J. W. Morgan, of the firm of J. W. Morgan & Co., carriage manufacturers, has sold out his interest in the company and also his house and lot. Mr. Morgan has not yet decided whether he will build here in the spring or remove to another locality.

City Attorney, R. M. Richmond, left for Platteville, Monday noon, to attend the funeral of his wife's brother.

Prof. Arnesmeyer, the Beloit hypnotist and mind reader, who was at Magees Opera House three evenings last week did not seem to meet with any great success. No doubt like the gentleman in Newport, he failed as a mind reader from a total lack of material on which to work.

Miss Marilla Andrews, teacher in the High School at Viroqua, is spending the spring vacation at her home in this city.

Rev. W. M. Short, pastor of the Congregational church, accompanied by Mrs. Short went to Racine Monday to attend the funeral of Mrs. Short's grandfather, Mr. Morse.

The last number of the lecture course subject, "The Passion Play of Oberammergau," will be given by John J. Lewis in the opera house, Thursday evening. It is expected that this will be one of the best lectures on the course.

His Wife's Weak Heart.

It is a singular thing that in the popular view of disease the interdependence of the several organs of the body is lost sight of. The heart, for example, is diseased and it is treated as if it were entirely separated from, and independent of, every other organ.

The fallacy of this opinion is shown by the cures of heart "trouble," liver "trouble," kidney "trouble" and other so-called "troubles," effected by the use of Dr. Pierce's Golden Medical Discovery. Primarily the "Discovery" is a medicine for the cure of diseases of the stomach and blood. But it cures diseases of organs seemingly remote from the stomach, because these diseases have their origin in a diseased condition of the stomach and its associated organs of digestion and nutrition.

"I doctored with three different doctors for weak heart, but they did me no good," writes Mrs. Julia A. Wilcox, of Cynth, Wood Co., Ohio, Box 52. "I was so tired and discouraged if I had had my choice to live or die I would have preferred to die. My husband heard of 'Golden Medical Discovery' and he bought a bottle, took that and the first half seemed to help me. I took six bottles before I stopped. I am perfectly well, and am cooking for six boarders. It has been a God-send to me."

All these changes and improvements will mean a season of great activity in railway circles and Afton will see a lively summer.

One new member was voted in and accepted at the regular meeting of Afton Camp, 2192, M. W. A., last Saturday evening.

NOT HEREDITARY

In the main, consumption is not hereditary; it is infectious. People are too afraid of heredity; better not think of the subject at all. Infection occurs continually.

Low vital force is hereditary; which gives consumption its chance. And infection plants it.

Between the two, the crop is a big one: about one-sixth of the human race, so far as is known.

We suppose it needn't be 5 per cent, if people would take fair care and Scott's emulsion of cod-liver oil.

The care saves life in all ways; the emulsion is specially aimed at the lungs, beside its general food-effect.

We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl Street, New York.

BROWN BROS.

The moderately straight R & G No. 397 was and is the corset of comfort with the essence of style. It is straight enough for the prevailing vogue and curved enough to conform to healthful anatomical lines. In 1900 we were unable to fully meet the demand for straight-front goods and unwilling to resort to any makeshift to meet the conditions. At present, however, considerable additions to our factory facilities enable us to keep the trade supplied with real straight-front corsets at retail prices from \$1.00 to \$2.50, and also our 397, 197, Empire and other popular numbers. There are over seventy styles and sizes of R & G Corsets—a corset to fit every figure. R & G Corsets are the corsets that do not stretch. Every hairbreadth of stretch is taken out of the goods by means of steam-heated iron forms. This gives a permanency to the right shape and form that will stay in it until the last day you wear it. Every R & G Corset is sold with the understanding that it must give satisfaction to the wearer, or the dealer will supply a new one free of cost. If your dealer hasn't it, send us his name and we will see that you are supplied with what you want.

MR. STARKWEATHER'S LETTER.

In another part of the paper will be found a letter from the Reverend Mr. Starkweather, pastor of a Methodist church at Milton Junction, replying to an editorial that recently appeared in The Gazette. The paper does not care to open its columns to the discussion of church creeds, and will simply offer a word in reply to the reverend gentleman's letter.

Judge Taft, the present governor at Manila, in his recent report, dwelt at length on the unsettled conditions of the island, and said in substance that the long reign of the Friars had so enraged the natives, that it was next to impossible to convince them that the church and state under American rule, were distinctive, and that the Catholic church in America could accomplish more through the native priests, toward correcting the error, than all the other influences combined. Father McKinnon, who is on the ground, attempting to carry out the work suggested by Judge Taft, finds opposition on the part of the Protestant missionaries, and files a complaint.

While it is true that the Protestant missionary has a right to go anywhere and in his zeal may imagine that he is carrying the gospel to the ends of the earth, and that but for his effort the gospel would not be carried. It is equally true that the Catholic missionary enjoys the same right, and charity would suggest that he is inspired by the same lofty motives. At any rate he has gone to Manila to work for the civilization and uplifting of a class of benighted people, who are largely in sympathy with and believers in the Catholic faith. He has nothing to overcome in the way of religious prejudice except the influence of the Friars. That he will accomplish good results is not a debatable question. He is entitled to the aid and encouragement of the Christian world, rather than the hindrance.

It isn't a question as to whether the native Filipino is a good Catholic or a good Protestant, either are striving to be good in this world with equal chances for the next. The important question is, "What church influence will civilize and christianize these people the most effectively, and prepare them for self government?"

There is doubtless room for the Protestant missionary at Manila, but there is no room for proselyting, either there or in any other land. The Gazette is not in sympathy with narrowness, of any persuasion. The paper believes in loyalty to individual churches, and recognizes the fact that all of them are working for a common purpose—the bettering of humanity.

COUNTY CORRESPONDENTS.

Readers of The Daily Gazette are kept in close touch with the county through the paper's staff of able correspondents. Almost every town in the county is represented, and the office is sending into the farm homes of Rock county 3,000 copies of a weekly, twice a week, besides a large list that goes all through the state.

It will bother you in a day's ride through the county to find many intelligent homes where The Weekly Gazette has not been a constant visitor for many years. The paper is not only taken, but it is read as religiously as the bible, and this local interest is promoted by the work of the county correspondent.

Many of these writers are young people, who take an interest in the family paper, and who like to do initial work in journalism. Some of them are veterans, who for many years have been on the staff. All of them are loyal, enthusiastic supporters of the paper, and contribute much to its interest and success as a home paper.

Janesville business men have long since discovered that if they have anything to say to Rock county people, that they can reach a host of them through The Gazette. One issue of the paper is worth more as an advertising medium, than all the tin, or fence board signs, that were ever painted. If you don't believe it, advertise a bargain some day, and see how long your stock will last.

FRATERNAL INSURANCE.

There are two bills now pending in the assembly that look to the exempting of fraternal insurance companies from the law compelling the publication of annual statements. These bills are known as 547 A. and 538 A. Both of them should be killed. If there is any class of life insurance companies that should be compelled to publish a statement of their

financial condition once a year, it is the fraternal class. They handle millions of dollars every year, and are practically accountable to nobody. Very few of them have any reserve fund, and when their members reach an age where it is not desirable to carry them any longer, they are frozen out by prohibitive rates.

They should not only be compelled to publish their condition once a year, but a law should be passed requiring every last one of them to put by a reserve fund every year to provide for the future.

There are thousands of men carrying this class of insurance today, who will wake up to the fact in a few years, that they are not only destitute of protection, but that they have passed the age and physical condition where good insurance can be secured. Of course they have had protection at a cheap price for a few years, but a little more of an investment would have bought not only protection, but something tangible in the way of an asset. The Knights of Honor, organized twenty odd years ago, and with a membership of 140,000 in its palmy days, has a membership today of less than 65,000. Janesville men who were paying twelve or fifteen dollars a year a dozen years ago, are paying \$100 today. The financial statement issued to the members would puzzle a Philadelphia lawyer to decipher, and looks very much as though they hadn't balanced their cash since they started.

The company is going the road of all fraternal companies that don't provide an adequate surplus. The members of these organizations, as well as the public, are entitled to know where they are at, once a year at least, and the legislature will make a mistake if it don't require them to advertise their conditions. There is something very fascinating about fraternal insurance, on the monthly installment plan. It has the appearance of getting something for nothing, and that is always popular, but there is a hereafter, and many of these companies have already found it.

Vice-President Roosevelt has encountered the old question of senatorial courtesy, at the opening session, and finds it much more difficult to handle than a company of rough riders or a squad of mountain lions. The right of the minority to rule the senate is regarded as a sacred right, and so such obstructionists as Carter of Montana, are able to run things to suit themselves. This sort of nonsense may be all right from a senatorial standpoint, but it is extremely disgusting to the balance of the country, and the new vice-president can add to his popularity by cleaning house for a day or two.

The congress did a foolish thing just before adjournment in refusing to make an appropriation for the expense of the insular committee to Porto Rico. This is one of the most important house committees and entitled to all the help and encouragement that congress can give it. After voting hundreds of millions of dollars for other purposes, the people would not have complained at a small outlay for the committee. Congressman Cooper, who is the chairman, proposes to make the trip at an early date, at his own expense.

At the superintendent's meeting in Chicago Wisconsin came to the front in her development of the manual training idea in the public schools. The time is not far distant when this practical mode of educating will be recognized throughout the country.

President McKinley nominated his old cabinet, in spite of the advice of Harpers Weekly. That high grade "Journal of Civilization" will never forget him, and he may expect opposition from that quarter, as long as their funds hold out.

The selection of a reform candidate for mayor always means a scattering and dissipation of votes on election day; therefore the nomination of Judge Haney for mayor of Chicago augurs well for the republican ticket this spring.

England finds it necessary to increase her revenue, and is talking seriously of a tariff on sugar. Free trade is all right in theory, but it takes money to pay war expenses, and the tariff is a popular source of revenue, and is seldom burdensome.

There is nothing that so awakens citizens as talk of removing the county seat or the capital. Pierre, S. Dak., is being stirred to its foundation by the friends of Mitchell, who are making a determined fight for the capital.

Senator Carter needs a little English discipline to straighten him out. Sixteen Irish members of Parliament were carried out bodily the other day because they refused to retire voluntarily.

It appears that Admiral Dewey is not so much sick as he is married.

Sam. Mosher, who was sentenced to twenty-one years in the Illinois penitentiary yesterday, is another victim of religious fanaticism. He was expelled from what is known as the Amish church because he expressed

A lioness is said to have escaped from a menagerie in France recently, and flattered by the attentions of an old lady, who, thinking the animal was a big dog, patted it on the head, followed her for quite a distance. THE STORY OF OLD GLORY.

Illustrated Lecture at Court Street Church Heard by G. A. R. Men. W. H. Sargent Post No. 20 G. A. R. were last evening guests at a patriotic lecture. They accepted the invitation of the Rev. W. A. Hall and heard the "Story of Old Glory" as told by W. B. Culliss at the Court Street M. E. church. The old veterans turned out in large numbers and the presence of the Post, as an organization, lent an inspiring enthusiasm to the occasion.

The lecture had largely to do with the Spanish American war and the views of the incidents and important scenes as well as of the heroes connected with this recent struggle were very interesting.

The lecture was preceded by the illustrated song "She Was Bred in Old Kentucky" and followed by "Nearer My God to Thee" both of which were very fine. The choir consists of Miss Cora Anderson, Mrs. Fannie L. Clark, Frank Smith and Leonard Mathews with Miss Ada Pond as organist.

Tonight the series of lectures will close with Ben Hur, illustrated with 105 views. Those of the chariot race and the wrestling match are said to be the finest in the world.

JANESVILLE FOR COMPETITION

It looks as if Beloit was afraid that it was a going to give something for nothing if it granted a franchise for an electric road. Also that they fear that they will not get the whole pie but that some other city may get a slice. The Beloit News of yesterday said:

"It is agreed that if Beloit is to give a valuable franchise Beloit must benefit and Beloit must name the conditions. These conditions are primarily, a local line to serve the people and a line to Delavan lake which latter is to be constructed as soon as any other interurban line is built."

"Nine merchants out of ten want an interurban line, but we want it made an imperative clause in the franchise that the line to Delavan lake be built simultaneously with the others and that it be built from Beloit and not from Janesville, for the people in the latter city are figuring on a nice little scheme to pay the forfeit of the promoters and then shoot an eastern line from their own town. The bad effect to Beloit of such a move is apparent to the least thinking person."

Shows a Small Spirit.

The above paragraphs show the spirit that prevails in Beloit when they are brought into competition with neighboring towns. They act as if they were going to lose all of their factories if an interurban line was built.

As far as Janesville having a scheme on foot to wait until a franchise was granted the Beloit, Delavan Lake and Janesville road and then pay the forfeit of the promoters and build the Delavan line direct from this city instead of from Beloit as is now planned was never thought of. Janesville is satisfied to have the line run into the city and are confident that they will receive enough benefit from it to pay them for any concessions they may have to grant to the promoters.

The people of Janesville feel that this will not be the end of the line and that in time Milton Junction, Edgerton, Stoughton and Madison will be made a part of the system which will be of as much benefit to the city as a system of steam railroads.

They are not afraid to have their city brought into competition with other towns by an electric railroad.

Meeting Held Last Night.

The common council of Beloit held a meeting last evening which was largely attended by the business men of the city. It was hoped by the people interested in the move that the matter would be settled at this meeting. Evidently the judiciary committee did not have back bone enough to make their recommendations and let the matter go, and asked for more time which was granted.

A resolution was presented and granted to the effect that after the council had agreed upon a franchise that it be submitted to a vote of the people. As this will hardly be ready for the spring election, a special election will have to be called to settle the question.

The meeting of the council last evening was a warm one from start to finish. Addresses were made by A. N. Bort, ex-Mayor E. G. Smith, George H. Cram, James Croft, C. B. Salmon and others.

James Croft representing the Chicago, Milwaukee and St. Paul railway in Beloit, stated that the only road, urban or interurban, that would satisfy Beloit was one that took in every factory, school, cemetery, depot, store and church in the city.

His address savored largely of steam roads and makes it look as if a strong fight was being put up on the quiet by the steam railroads to kill the enterprise.

Road Would Kill Beloit.

C. B. Salmon, who has lately been trying to ride Beloit with his water plant took part in the speech making. He was opposed to electric roads either urban or interurban. He has a good thing in his waterworks plant and wants the city to grant no more franchises of any kind. He claimed the road would kill Beloit, the people would all go to Janesville and Rockford, the factories would all be closed and then under those conditions his water plant would be no good.

In reply to such a statement the promoters of the road say:

"If we thought that our road would bring ruin upon a town we don't care to build into that town. We are not building roads for a pastime and certainly not build into a town

that would make us bankrupt and lose our money."

Stated by T. S. Nolan.

The interests of the Delavan Lake, Beloit and Janesville road were advanced by Mr. Clough and T. S. Nolan and what they proposed to do clearly stated to the council. Under the present plans of the company Beloit gets everything in return for her franchise. She is the center from which all of the lines radiate and will also have the power plant which will cost nearly \$150,000.

Mr. Frawley for the Rock River railway company asked for an urban franchise and almost agreed to run cars to every house in the city. In fact he promised more than he could perform and his plans might involve Beloit in an injunction proceeding which would effectually put a stop to any electric line within her limits.

W. E. Davis, representing H. Newcomb and the Savings and Trust company of Cleveland, O., addressed the council and said that the Beloit, Delavan Lake and Janesville road had plenty of backing to carry out all its plans. Davis represents capital of more than \$5,000,000 and is largely interested in the interurban lines of Indiana and Ohio. He has been over the proposed lines of the road represented by Mr. Clough, and will also go over the proposed route to Beloit and other places. It is thought by those who claim to know that the line will be built between some of the proposed points this summer whether Beloit grants a franchise or not.

CALEDONIANS IN ANNUAL MEETING

COMBINED BUSINESS WITH
PLEASURE LAST NIGHT.

Officers Are Elected, Reports of Secretary and Treasurer Read and Other Routine Business Transacted—Following This Was a Literary Program and Dance.

At the annual meeting of the Rock County Caledonian society, held yesterday afternoon at three o'clock, Andrew Scott was reelected to the vice-presidency of the society and James R. Lamb was made secretary in place of Dr. James Mills, who has served efficiently for the past two years but who insisted on being relieved from the duties of the office. John Harvey continues as treasurer and librarian.

The office of president is filled by the vote of the directors, who were elected as follows: Dr. James Mills, Alexander Galbraith, P. J. Mount, George Skinner, Colin C. Maclean, Dr. James Gibson and L. L. Fletcher.

Supt. D. D. Mayne was made an honorary member of the society, free from dues, an distinctive recognition of his kindness to the society. Fred L. Clemons was made an honorary member and D. M. Barlass an active member.

The annual reports of the secretary and treasurer were received and other routine business was transacted. The social given by the Rock County Caledonian society at the armory last evening as a climax to the annual meeting was a great success. The program was one of exceptional merit and, being complimentary to the members and friends of the society. It was enjoyed by a large audience. Every seat in the hall was filled and many were obliged to stand during the program.

President Alex. Galbraith welcomed the audience and after a few remarks announced the opening of the program with a selection by a male quartette, consisting of Messrs. Will Garbutt, H. F. Nott, D. D. Bennett, and John Barlass. They sang "Come Where My Love Lies Dreaming" so harmoniously that one would not realize that the quartette had but just been organized. The audience insisted on an encore, to which the gentlemen responded with "Kentucky Home."

Miss Fannie O. Rummil then recited "The Rose Act," one of the most humorous of Samantha Allen's productions. Miss Rummil recited very nicely and the selection was thoroughly enjoyed.

A letter was read from Prof. A. J. Hutton of Whitewater expressing his regret and mortification that he was unable to keep his engagement but the changing of dates on which he was to lecture to a farmers institute, a previous engagement, made it impossible for him to be present in Janesville.

Supt. D. D. Mayne was called upon next to give his stereoscopic views of Scotland. In his introduction Supt. Mayne said that he had chosen to give, not the views of Scotland's most picturesque scenery, in the high lands, but the views which possessed the greatest personal interest for him, those connected with the life of Robert Burns.

Mrs. W. S. Jeffris sang very sweetly Vannah's exquisite "Lullaby" with violin obligato by Oscar Halverson and piano accompaniment by Mrs. C. N. Vankirk.

After the program the floor was cleared and dancing was indulged in until after midnight. Smith's orchestra of four pieces furnished some of its choicest music and the floor was well filled with dancers.

No Name Card Club.

The No Name card club held a regular session last evening at the home of Dr. and Mrs. R. W. Powell, the members enjoying the best possible kind of a time. Mrs. R. E. Barlow received the lady's first prize as a reward for her proficiency with the bits of pasteboard, and James Vaddle captured the gentleman's first prize. Lucky number prizes were also awarded, and in the winning of these fortune favored Mrs. W. S. Pond and Dr. James Gibson. After the awarding of the prize an appetizing supper was served, and the pleasure of the evening came to a happy conclusion with the enjoyment of the dainty viands and the social chat and merriment with which the feast was accompanied.

E. church of which the deceased man had been a devout member, conducted the services, being assisted by Presiding Elder W. W. Stevens and Rev. Frank Poorman. Mrs. Christine Hawley sang several appropriate selections beautifully. The interment was at Shopiere, the pall bearers being W. J. Cannon, W. B. Campbell, A. W. Hall and H. Sandow.

REPORT OF THE CORONER'S JURY

Will E. Howard Came to His Death
by Means of a Gunshot Wound
Self Inflicted.

Will E. Howard, who shot himself with suicidal intent yesterday morning, died at his home in La Prairie yesterday afternoon about 3 o'clock.

A coroner's jury composed of R. K. Overton, Andrew Scott, John Wright, W. T. Sherman, I. S. Van Gilder and E. K. Fitch under charge of Justice Jesse Earle was summoned and an inquest held last evening.

After listening to the testimony of Miss Ann Morton, W. A. Read, Wallace Cochran and Dr. James Mills, the jury rendered the following verdict:

"That he came to his death on the 7th day of March, 1901, at his home in the town of La Prairie, by means of a gunshot wound fired from a revolver in his own hand."

Nothing new was developed at the inquest. His mother-in-law, Mrs. Ann Morton told of finding the body in the barn after Mrs. Howard had made an unsuccessful search for her husband and of going to W. A. Read's farm for help.

Mr. Read told about where the body was when he arrived at the shed and about finding the revolver under his right arm.

Under Sheriff Cochran testified as to the condition of things at the farm when he arrived and that he picked up a box of cartridges, a revolver with three empty chambers and two loaded ones in it. He identified the revolver, cartridges and notebook as the one picked up by him.

Dr. James Mills was the last witness. He testified to the condition in which he found Howard when he arrived. He was unconscious, breathing heavily and bleeding badly. He found that only one of the three bullets had penetrated the skull and that was the one above the right ear. Powder marks were plainly seen and showed that the gun had been held close to the head.

The letter he left behind is as much of a mystery to his family as to outsiders as there had been no trouble to cause him to do anything of this kind and why he should take his life cannot be explained by his family.

He leaves a wife and two children to mourn his death and they have the sympathy of the entire community in this their hour of trouble. The funeral will be held from the house on Saturday afternoon at two o'clock.

Ray Morse's Store Burned.

Word reached the city today that fire had totally destroyed the general store of Belleville, Wis., belonging to Ray Morse, formerly of this city. The loss was estimated at \$8,000. Mr. Morse is well known in this city where he grew to manhood. His wife has a large relation ship here and perhaps he better remembered as Miss Nellie Ide, daughter of Mr. and Mrs. Miller Ide. Since their marriage, a few years ago, they have resided at Belleville, where Mr. Morse had built up a most prosperous business.

URGES THE PANAMA CANAL.

New Proposal Is Made to Secretary Hay.

MAY SETTLE DIFFERENCES.

Senator Silveira, the Colombian Minister, Submits Question to Secretary of State.—Negotiations for Waterway to G. Before Congress—Silveira's Proposals.

Washington, D. C., March 8.—When congress next assembles all diplomatic obstacles in the way of the construction of an isthmian canal will have been removed. Negotiations to this end will immediately begin with Great Britain and with the United States of Colombia. Secretary Hay has received advices that Lord Pauncefote will submit proposals for the revival of the Hay-Pauncefote treaty and to harmonize the points of difference between the United States and the British government. Senator Silveira, the Colombian minister to the United States, has already formally submitted proposals to Secretary Hay for the acquisition of the Panama canal by this government, and has been invited to further discuss them. Preliminary protocols were entered into some time ago with Costa Rica and Nicaragua, so that these two countries will during the summer probably be merely interested spectators of the moves which the United States, Great Britain and Colombia will make on the canal chessboard. The proposals which Minister Silveira has submitted are not understood to be final, but are merely put forward as the basis of negotiations. Advocates of the Panama route point out that the Walker commission's report shows that technically the Panama route is more advantageous than the Nicaragua route, and Minister Silveira's mission is to remove the political obstacles in the way of the adoption of that route by this country. Secretary Hay is understood to be favorably inclined toward consideration of the Colombian proposals, but he, of course, cannot commit the government in advance of action by congress, and the result of the negotiations will probably be merely a protocol something like that entered into with Nicaragua and Costa Rica.

Not Alarmed About Cuba.
There is a division of opinion among congressmen concerning the Cuban situation. Several prominent members of the senate believe that there are grave dangers of an open insurrection and that an extra session of congress is probable. On the other hand equally influential senators say that the radical element upon the island will not go to the extreme of an armed resistance or outbreak and add that the president has sufficient power to deal with any situation that may develop without further authority from congress.

Senator Frye Is Complimented.
Senator Frye of Maine was unanimously elected as president pro tempore of the senate to preside during the absence of Vice-President Roosevelt.

Admiral Dewey has been rewarded for his participation in the battle of Manila, by a check for \$9,750, which represents the judgment rendered in his favor by the court of claims. Had the Spanish fleet which he met been superior in strength to his own, prize money would have been twice as great.

Our medical correspondence is larger than ever in the history of the medicine. Many write to thank us for the great good S. S. S. has done them, while others are seeking advice about their cases. All letters receive prompt and careful attention. Our physicians have made a life-long study of Blood and Skin Diseases, and better understand such cases than the ordinary practitioner who makes a specialty of no one disease.

ment had demanded to be sworn in as "delegate in congress from the Territory of Lake Michigan." He was told that he would have to go to the capitol to be sworn in. "I hold in my hand the electoral vote of the territory, which I must cast for president," he insisted, waving a batch of papers. But that did not accomplish his purpose, and he left the department thoroughly disgusted. "I am the duly elected delegate for a term of four years from the new Territory of Lake Michigan, east of Chicago, range 3, township 47," Capt. Streeter explained. "We have a territory covering 300 acres and we have 127 voters. I can't get any satisfaction in this department. I am going up to the capitol to see Mr. Roosevelt."

Hanna in Favor of Closure Rule.
New York, March 8.—Senator Hanna, chairman of the Republican national committee, declared that he believed the closure rule introduced in the senate by Senator Platt of Connecticut would be taken up at the beginning of the next session of congress and made a rule of the senate. "I have always been in favor of the rule," said Senator Hanna, at the Waldorf-Astoria. "I believe it will be passed."

English Newspapers Are Sarcastic.
London, March 8.—The afternoon papers here today make little comment on the statements of Senator Morgan of Alabama yesterday in the United States senate in his plea for the Nicaragua canal, following his resolution declaring the Clayton-Bulwer treaty abrogated. The Pall Mall Gazette says:

"Mr. Morgan cannot help making his friends and relatives exquisitely uncomfortable. Every time he opens his mouth he must give any show away with which he has the presumption to meddle."

The Westminster Gazette says: "Mr. Morgan is having a great time. His warnings are all very alarming, but we are reassured by the knowledge that the route of the canal is not yet definitely determined."

Averts Danger of Clash.
Havana, March 8.—The Cuban constitutional convention met in secret session this afternoon for a formal discussion of the Platt amendments. The conservative element scored a victory. It was decided to continue the sessions of the convention and to refer the amendments to the special committee on relations, with instructions to bring in a report.

Students in a Fierce Fight.
Newcastle, Ind., March 8.—A fierce battle for supremacy between the seniors and sophomores and the juniors and freshmen of the high school took place on the roof of the high school building. The trouble arose over the hoisting of the class colors on the flagpole, in which fifty or more students took part. In the scrimmage which was waged on the roof many of the young women of the high school took part, and pulled hair and fought as fiercely as did the boys.

Hugs Two Milwaukee Women.
Milwaukee, Wis., March 8.—"Jack the bugger" is again on the rampage. The latest victim is Joseph Plummer's cook, who was waylaid in front of Mr. Plummer's residence last night, and hugged until she was out of breath. She ran into the house and when a few minutes later a friend on her way to visit the cook appeared Jack hugged her also. The two women reported the matter to an officer.

The shipments are to be made a train at a time. The order means that the hens of Oklahoma and Kansas have ahead of them the task of laying 28,800,000 eggs this spring.

Dislike Von Buelow's Talk.
St. Petersburg, March 8.—Chancellor von Buelow's speech in the German reichstag Tuesday on Anglo-German relations is unfavorably commented upon by the Russian newspapers. They express the opinion that the chancellor's policy is tending more and more to compromise the solidarity of the good relations existing between Russia and Germany.

Cape Town, March 8.—It is officially announced that Colonel Goringham occupied Pearson, on the Great River, March 5. Dallas, Tex., March 8.—John Henderson, a negro gambler of Dallas and Corsicana, known as "Bright-Eyes," was arrested last night at Corsicana, charged with being the murderer of Mrs. Valley Younger, the wife of a white farmer, in the Chambers creek neighborhood of Navarro county yesterday afternoon. The arrest was made by a member of the Corsicana police force, and the prisoner was hurried off to jail at Hillsboro, in Hill county, thirty miles west of Corsicana, to save him from being lynched. Hundreds of farmers and other residents of Navarro county were scouring the country districts with bloodhounds for the criminal at the time of Henderson's arrest.

ILLINOIS.

Thursday, March 7.

Capt. Farrell put in a bill which, if it should pass, would make it a crime for any one to sell coal oil, kerosene, gasoline or naphtha for fuel purposes. The bill prohibits the sale of combustible oils for fuel purposes and carries heavy penalties for violations. Capt. Farrell says he introduced the bill because a large portion of the fires in the state are due to the use of gasoline and kerosene for fuel purposes. Should the bill pass users of oil stoves who use gasoline, gasoline engines and gasoline, naphtha and steam automobiles would have to go back to coal, gas and electricity.

INDIANA.

Thursday, March 7.

The house passed the bill for the strengthening of the fish game law. Extraordinary powers are given to peace officers by the bill. It provides for the issuing of search warrants by justices of the peace in all cases where there is reason to believe anyone has fish or game in his possession out of season, and in such cases the state is made the complaining party. The anti-kidnaping bill, which provides for imprisonment for not less than ten years and for life as the maximum penalty, was also passed.

MICHIGAN.

Thursday, March 7.

According to figures submitted by Chairman Dingley of the ways and means committee, the total appropriations of the present session of the legislature are likely to reach \$3,000,000, which is over \$1,000,000 in excess of the appropriations of any previous legislature. An effort will be made to reduce these figures, and with this end in view Chairman Dingley has requested that all appropriation bills be placed in the hands of his committee within the next two weeks.

WISCONSIN.

Thursday, March 7.

Rev. Mr. Colestock of Madison, who was called in to open the session of the senate with prayer, gave the state and dignified senators a severe shock by including in his prayer a petition for guidance for the senators in their action on the anti-cigarette bill. This is the first time in Wisconsin history when a minister has used his prayer as a vehicle for influencing pending legislation. The incident is said to have caused no little comment, and it is likely that Mr. Colestock will be called upon again to perform such a service.

New York City Will Own Old Headquarters of Gen. Washington.

New York, March 8.—The Jumel mansion and grounds in Harlem, which were occupied by General Washington as a headquarters, will come into the possession of the city as a public show place of revolutionary relics through the action of the board of public improvement. Hall appeared for the Society for the Preservation of Scenic and Historical Places of Interest. The mansion was built in 1750 by Roger Morris, a colonel in the British army. General Washington used the mansion as a headquarters during the summer of 1776. Stephen Jumel bought the property in 1800, and his widow, Marie, Jumel, who married Aaron Burr, occupied the property at the time of her death, in 1865. The house is in a fair state of preservation. The cost of the property to the city will be about \$200,000.

Omaha, March 8.—James Callahan, one of the alleged kidnapers of young Cudahy, waived examination yesterday in his preliminary trial and was held to the District Court in \$7,000 bond. CORSET PAINS—A woman once said she liked to wear a corset because it was such a relief when she took it off. So long as Fashion makes women wear corsets, they will continue to squeeze their bodies into shapes never intended by Nature, and they will also continue to suffer. The pain and discomfort won't be so bad, however, if they will rub themselves every night with a little Omega Oil. This relaxes the squeezed-up flesh and muscles, takes out the soreness and has a wonderfully soothing effect. The woman who wants to get up in the morning feeling fine, ought to get some Omega Oil right away and use it.

Omega Oil is for sale in most drug stores. Any druggist can get a supply of his wholesaler. If your dealer does not keep it, the Omega Chemical Co., 257 Broadway, New York, will mail you a bottle, prepaid, if you will send \$1.00 in cash, money order or stamps.
